Introduction to Computers

Introduction to Secure Networking

Essential Aspects of Software, Hardware,
and Data Backup

Sep 21, 2026

Ahmed Mohammed Abo Sultan

has successfully completed the online Specialization

Microsoft Foundations of IT Systems, Networking, and Data Protection

Now that you have completed Microsoft IT Systems, Networking, and Data Protection, you stand out with foundational knowledge in IT support, networking, security, cloud, and data protection. This certificate demonstrates your readiness to discuss core computer systems, operating systems, Microsoft 365 concepts, networking basics, secure software and hardware configurations, and data backup strategies. Throughout this program, you engaged with instructional content, assessments, and practical IT scenarios that helped you build skills for entry-level technical support environments.

Microsoft

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
